

INTRODUCING MASDAR CITY

Welcome to Masdar City; a dynamic business hub and one of the world's most sustainable urban developments, located in Abu Dhabi, United Arab Emirates (UAE).

As the only planned and approved R&D cluster in Abu Dhabi, Masdar City has developed a unique ecosystem for innovation, education, R&D, technology, and business.

From homegrown start-ups, to SMEs and multinationals, it is home to more than 1,000 companies working across key sectors such as renewable energy, artificial intelligence, mobility, energy storage, water efficiency, health, agriculture, space, and sustainable urban development.

Masdar City's economic free zone offers a unique strategic base and network through which companies can build partnerships both locally and globally, explore multiple investment opportunities, and test new technologies.

HOME TO OVER 1,000 COMPANIES INCLUDING:

POWERFUL BUSINESS ECOSYSTEM

Five minutes from Abu Dhabi International Airport, 20 minutes from downtown Abu Dhabi, and 40 minutes from Dubai.

Home to more than 1,000 organizations.

Masdar City Free Zone offers multiple benefits including, 100% foreign ownership, 0% import tariffs, reduced tax footprint, and access to R&D partnerships.

Home to The Catalyst, the region's first sustainability-focused start-up accelerator.

More than 450,000sqm. of completed buildings fully leased and occupied.

MASDAR CITY FREE ZONE: A POWERFUL BUSINESS ENABLER & INCUBATOR

Leading businesses and organizations from across the world are proud to call Masdar City Free Zone their home.

The One-Stop-Shop of business support services enables tenants to set up operations quickly and gain access to local and international networks, investment opportunities, new technologies, research and development partnerships, and plan for the long term.

A hub for innovation, Masdar City Free Zone also encourages entrepreneurship by providing support for start-ups.

This includes the region's first start-up accelerator focused on sustainability and clean technology, the Catalyst, a joint venture between Masdar and bp, as well as the UAE's first space economic zone to provide incubation and acceleration for space related start-ups and small and medium enterprises (SMEs).

Critical mass of **knowledge and talent**

Cost effective,

dual licensing and office space

A launch

point into local, regional and international markets

Reduced
tax footprint

Professional access to **R&D partnerships**

STEP BY STEP GUIDE TO SETTING UP YOUR COMPANY

1

Access our e-services portal and fill out initial information. You will also be required to propose a company name and make an initial online payment of AED 2,000 for the name reservation.

We will review your information and obtain the required approval for the name reservation from the Abu Dhabi Department of Economic Development. An email notification will be sent to you taking you to the next step.

2

Access our e-services platform and submit the required detailed information and documents.

We will review and approve all submitted information and documents. We will then issue your organization's legal documentation through the system (Resolution, Articles of Association, Memorandum of Association). Our advisors will also reach out to you to present our existing lease options.

3

You will need to sign the legal documentation and finalize the lease process and payments by visiting Masdar City Free Zone's One-Stop-Shop or through courier service.

Finally, we will issue your license and certificate of registration/incorporation, which you will be able to access on our e-services platform.

PIONEERING SUSTAINABLE URBAN DEVELOPMENT

Masdar Green REIT (established in the Abu Dhabi Global Market) is the first in the UAE to invest solely in sustainable real estate assets.

Home to world's first driverless, personal rapid transit (PRT) system; the Naya - the MENA's first autonomous shuttle, and the region's first electric bus.

2 million+ passengers have used the city's sustainable mobility network to date.

Largest cluster of low carbon and LEED-certified buildings in the world.

All buildings mandated to achieve a minimum 3-Pearl rating under the Estidama Pearl Building Rating System (PBRs).

The majority of Masdar City's power is generated by 10MW solar PV plant and rooftop solar panels.

Masdar City tenants can enjoy savings on utility bills.

TESTBED FOR INNOVATIVE TECHNOLOGIES

(MBZUAI):

Home to the world's first university dedicated to artificial intelligence, the Mohamed Bin Zayed University for Artificial Intelligence (MBZUAI).

MISP:

Khalifa University's Masdar Institute Solar Platform (MISP) allows for concentrated solar power (CSP) and thermal energy storage (TES) technologies to be developed on a wider scale by providing access to high-performance CSP research and demonstration infrastructure.

De L'Arta:

An R&D company that is creating a sustainable skincare range using native UAE flora by using science that dates back 10,000 years.

Volts Battery Storage:

A smart battery management system (Energy Storage) that could power an entire house from a renewable energy source.

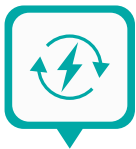

Azelio:

An innovative R&D project that will demonstrate a cutting-edge distributed and scalable Thermal Energy Storage-Power on Demand (TES.POD) system, to deliver 24/7 affordable clean energy utilization.

Solva Technologies:

An environmentally friendly transportation start-up, providing the world's first electric last-mile delivery platform by offering smart fleet management software through route, driver and vehicle optimization.

Electric Storage Solutions Hub:

A state-of-the-art testing and R&D hub for electric energy storage technology.

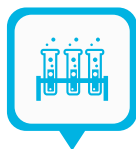

Safe City:

Leveraging AI technologies to provide world-class solutions for smart and safe cities.

Seramic Materials:

Developing turnkey solutions to repurpose industrial waste into value-added products such as ceramic.

G42 Healthcare:

G42 Healthcare is a leading health tech company based in Masdar City. It is on a mission to develop a world-class healthcare sector, by harnessing data and emerging technologies in healthcare to unlock the potential of personalised and preventive care and transforming the traditional healthcare ecosystem.

Seawater Energy & Agriculture System (SEAS):

In partnership between Khalifa University, Etihad Airways, Boeing, General Electric, ADNOC, and Honeywell, the project supports the nascent Middle East aviation biofuel industry and increases food security through the cultivation of salt-tolerant plants with the wastewater of an integrated aquaculture farm.

VALUED PARTNERS

We continue to grow our network of partnerships to facilitate your business needs.

Financial and Legislation Services

ABU DHABI GLOBAL MARKET
سوق أبوظبي العالمي
AN INTERNATIONAL FINANCIAL CENTRE

Masdar City and the Abu Dhabi Global Market (ADGM) joined forces to enhance foreign investment in Abu Dhabi, promote innovative projects that advance the UAE's economic competitiveness, foster institutional integration, and more. Under this partnership, ADGM can provide businesses that establish their license in Masdar City Free Zone with the option to be governed by the rules of Common Law.

Web Services

Masdar City collaborated with Amazon Web Services to empower startups in the Masdar City Free Zone by offering scalable and secure cloudbased services. This collaboration will give start-ups access to AWS Activate, a program that provides \$50,000 USD worth of AWS credits and tools that will help them innovate and scale even faster.
